The National Park Service neither created, sponsored, nor endorsed this document. All material herein, however, comes from official NPS/USG or allied sources. Note that the figures contained within this document are taken directly from NPS' IRMA website. They are consolidated here for the purposes of allowing for easier use and comparisons vs. how they're provided on IRMA. Note that NPS does not track visitation for a small handful of units (or for some units individually if they're managed by an umbrella unit/group), and those units do not appear in this list.

It is important to note that information contained herein is from the most recent sources, but is subject to change. With an organization as large as the National Park Service is, flux is a constant, and things like addresses, names, capabilities, staffing patterns, services offered, admission prices, concession operations, etc., can and do change often. Consequently, this information should be recognized as recent, but may not necessarily be THE most current. Updates to this document will be issued periodically on the project website (<http://www.npsunitproject.com/>). Please check there for the most up to date version of this document. Please forward any corrections or changes to the e-mail address listed at the bottom of this page.

The material in this document may be utilized without credit by any office, division, or representative of the National Park Service, any other agency of the federal government, or any agency of a state or local government for any official purpose. All other uses, including those for personal, commercial, news, or other non-governmental function must obtain permission from the copyright holder with credit given as outlined below.
